RFP Calendar of Events	General	As we are finalizing our proposal submission, I just wanted to reach out and confirm there will be no additional Q&A to be released nor additional extensions granted and that the proposal due date/time for this solicitation remains Friday, 7/21/2023 at 2:00. We are making the proper delivery arrangements to ensure this arrives on-time, but if there's going to be some additional time granted for this RFP, we'd like to take advantage of that time.	At this time ITS does not anticipate additional Q&A will be released and no additional extensions to the Bids Due Date will be granted.
