The main control panel features two vertical columns of five indicator lights each, each with a small square box to its left. Below these are two columns of feature buttons: the left column has 'Conference' and 'Drop' buttons, and the right column has 'Transfer' and 'Hold' buttons. A central numeric keypad includes buttons for digits 1-9, \*, 0, and #. Below the keypad are 'Recall' and 'Disconnect' buttons. A 'Message' indicator with a small square box is located at the bottom left. A vertical label 'fixed feature buttons' with a bracket and an arrow points to the numeric keypad area.
