Quizzes
Make learning fun with live quizzes

Analytics
Capture and analyze valuable insights from your events or meetings

Live Polls
Engage your audience with live polls

Surveys
Capture feedback from your participants
Poll types
Before the meeting

How to create polls & set up Q&A in slido.com
Slido as standalone

- Slido will remain as a standalone solution
- Slido works alongside most video conferencing platforms, live streaming tools and presentation softwares
Before the Meeting:

1. Go to slido.com and choose “Log in with Webex”
   (You will be automatically authorized with your Webex credentials)

2. Click “Create Slido” to start
Before the Meeting:

3. Schedule your Slido and set up your polls and Q&A

(You can prepare this anytime before the meeting)

4. Change the Event Dates and Event Code (＃) in Advanced Settings if required
How to set up your polls:

In the Live Polls tab:

1. Select a poll type

2. Type in your poll question (and options)

3. Hit save

💡 Learn more here
How to set up your Q&A:

In the Audience Q&A tab:

1. Turn on Moderation

2. Review incoming questions (optional)
   You can Approve or Dismiss any questions from here

Learn more here
Collaborators can create/edit polls, manage polls and Q&A, but only the owner of the Slido can see and change the settings.
Send people to Slido beforehand

Before the meeting
03
During the Webex meeting

- Add pre-created Slido to Webex
- Host view
- Attendee view
Activate Slido:

1. Schedule and launch a Webex meeting
2. Open “Apps” and select Slido (You will be automatically authorized with your Webex credentials)
3. Choose your “Pre-Created” Slido session (Select your event from the list)
4. **Activate your Poll** by clicking on the Green button
   (Only 1 Poll can be active at a time)
Host view

- Please note: Only the meeting host can run Slido in Webex meetings.
- The host view of Slido is only available to the host.
- Participants will see the attendee view.
- Guest collaborators can help manage the polls/Q&A through slido.com.
Once the host added Slido to the Webex meeting, the audience will automatically see it right next to the video call.

Note: If the Q&A is disabled, attendees will only see the Slido sidebar during an active poll.
Alternative ways for attendees to join Slido

If attendees are not joining directly through Webex (e.g. during in-person or hybrid meetings), there are three other ways how they can join Slido:

- At `slido.com` with an **event code**
  learn more

- By scanning the **QR code**

- Via **direct link**
