

RFP C000729- SPECIALIZED STAFFING TO PROVIDE APPLICATION DEVELOPMENT SUPPORT SERVICES				
Additional Questions & ITS Responses				
Q#	RFP Section Name	Section Number	Inquiry	ITS Responses
1	Attachment 20	Minimum Bidder Qualifications	Qualification 2 states: The Bidder must represent and warrant that it possesses at least eight (8) years of experience in providing/supplying technical support personnel which are the subject matter of this RFP, for the benefit of its customers (customer placements).” Would ITS please specify if the eight-year date range is required to be consecutive eight years and if there are any parameters on the eight-year date range?	The eight years of experience does not need to be consecutive. There are no other parameters associated with this particular mandatory requirement.
2	Attachment 20	Minimum Bidder Qualifications	Qualification 3 states: The Bidder must represent and warrant that it has fulfilled an average of fifty (50) customer placements across all customers over the last five (5) years. If a firm has 25 placements in year 1; 50 placements in year 2; 25 placements in 3; 50 placements in year 4; and 100 placements in year five, totaling to 250 placements over 5 years “averaging 50/year; Would this meet the requirement that the Bidder must represent and warrant that it has fulfilled an average of fifty (50) customer placements over the last five (5) years?	Using the numbers within the example provided, yes, the bidder would meet this requirement.
3	Attachment 20	Minimum Bidder Qualifications	Please define “All customers”. Do firms need to disclose placements across all customers or only disclose customers to meet requirement for average 50 placements/year.	The term "all customers" for purposes of this mandatory requirement means any placement the bidder has made. Placements with governmental agencies, non-profit entities, for profit firms, private sector firms to name a few, can all be counted. The bidder only needs to disclose enough customer placements to meet the requirement of an average of 50 placements a year.
4	Attachment 20	Minimum Bidder Qualifications	Qualification 5 states: “Bidder must have placed a total of fifteen (15) Level II placements among four (4) substantially similar titles, meeting the minimum requirements set forth in Section 3.1 of this RFP, and as specified in Appendix L, over the last five (5) years.” Attachment 20 under Qualification #5 is designed for insertion of 20 placements (5 each per title). Please clarify if ITS is looking for a total 15 placements across 4 titles or 15 placements for each title totaling to 60 or 5 placements in each title (since there are 5 rows) totaling to 20	ITS is looking for a total of 15 placements across 4 or more substantially similar titles. See amended RFP Section 2.3 entitled "Minimum Bidder Qualifications (Tier 1)," bullet "e" states "Bidder must have placed, a total of fifteen (15) Level II placements, among four (4) <u>or more</u> , substantially similar titles, meeting the minimum requirements set forth in Section 3.1 of this RFP, and as specified in Appendix L, over the last five (5) years."
5	Attachment 20	Minimum Bidder Qualifications	Qualification 5 -Does ITS have a threshold for substantially similar titles that will be deemed responsive and meet the minimum qualification?	The substantially similar titles should generally have similar skillsets, qualifications and levels of experience. ITS does not have an evaluation threshold it can share.
